WHO ARE WE

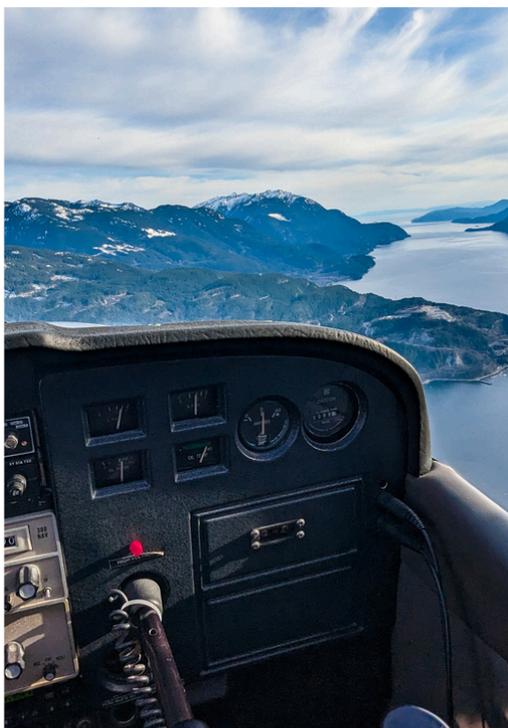

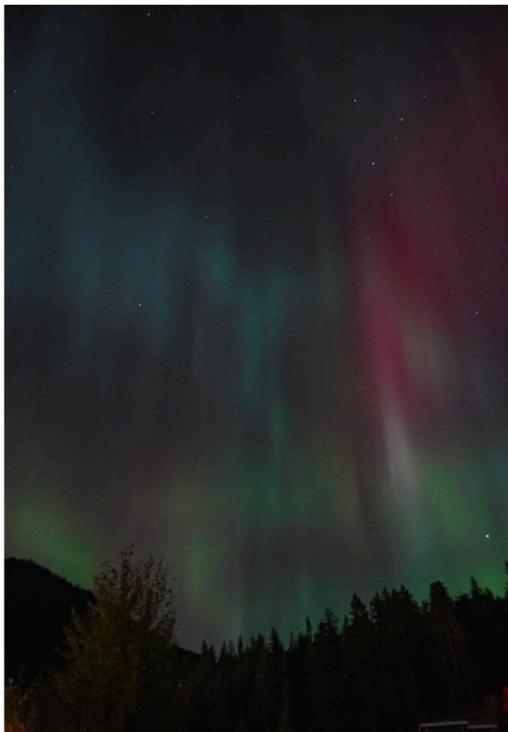

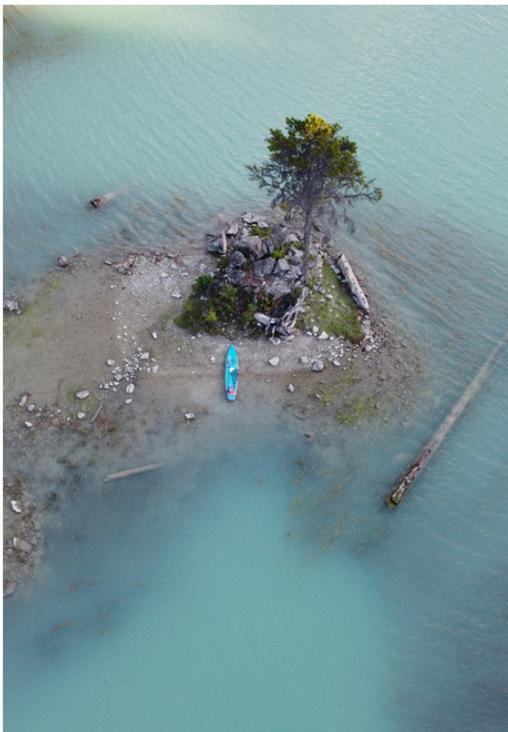

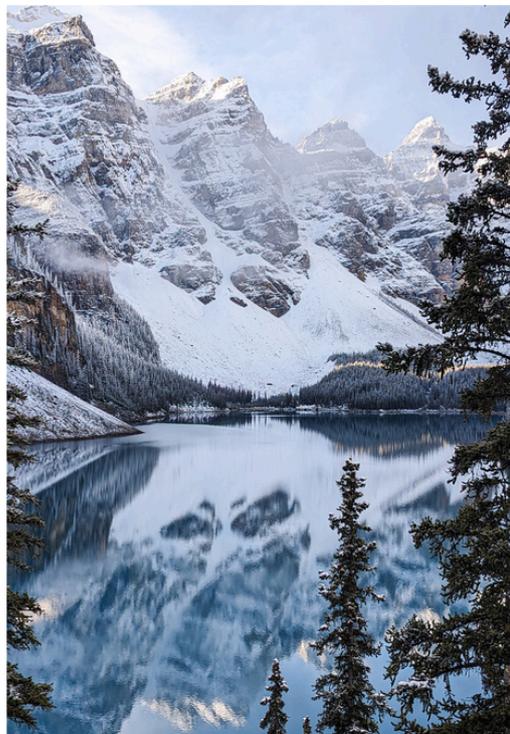

Alex has 7+ years work experience in the luxury hospitality industry in Canada and the United States. He has a passion for real estate, resorts and sustainable tourism development for northern and remote destinations. He also volunteers with Oceanwise in British Columbia. Nozomi worked for Starbucks in Tokyo for 10 years before moving to Canada. She now runs a Japanese Deli store in Whistler village and supports with Digital Design & Graphics.

We both love to travel during our time off and run Coastal Picture Studio together as micro-influencers. Our professional backgrounds in the tourism industry have grown into a deep passion for Canada, outdoor recreation, and supporting remote or smaller businesses and destinations off the beaten path. Some of our dream places to explore and work with include British Columbia, Yukon, the Northwest Territories, Scandinavia and rural Japan.

ORGANIZATIONS WE WORKED WITH

BASED IN CANADA

I am grateful to be able to live, work and play on the shared and unceded territory of the Lil'wat People, known in their language as *Li'wat7úl*, and the Squamish People, known in their language as *Skwxwú7mesh*. We produce high quality content for tourism agencies, small businesses and tour companies and provide a digital strategy and consulting if required on digital assets, website development and design.

OCEANWISE VIDEO PROJECT

LINK

<https://ocean.org/project/sustainable-orca-experiences-in-british-columbia/>

DESCRIPTION

I had the privilege of working on a fantastic project with Ocean Bridge, a Wise youth program, focusing on sustainable orca experiences in BC captured in a captivating video project. It was an eye-opening journey into the world of these majestic marine creatures and the importance of preserving their habitat.

From breathtaking encounters with orcas in the wild to exploring the stunning coastal landscapes of BC, this summer was an adventure of a lifetime! Combining these experiences in a video project showcasing options for both tourists and locals on how they can integrate both outdoor and educational experiences into their daily schedules or trips.
